

Chronexa OnTime App – User Manual

Chronexa OnTime is a mobile-based attendance application that enables employees to mark their attendance using secure face verification. This ensures accurate and contactless time tracking.

Step-by-Step User Guide

Step 1: Launch the Application

- Open the **Chronexa OnTime** app on your mobile device.

Step 2: Login

- Enter your **Username** and **Password** provided by your organization.
- Tap on the **Login** button to access the app.

Step 3: Proceed to Face Verification

- After successful login, click on the “**Proceed to Face Verification**” button.

Step 4: Select Attendance Type

- Choose the appropriate option based on your action:
 - **IN** – Select this option when you are starting your shift.
 - **OUT** – Select this option when you are ending your shift.

Step 5: Perform Face Capture

- Follow the on-screen instructions carefully.
- Ensure:
 - Your face is clearly visible.
 - Adequate lighting is available.
 - Camera is stable and focused.

Step 6: Verification Result

- Once your face is captured:
 - **Success Message** – Your attendance has been successfully recorded.
 - **Failure Message** – Face verification failed. Please retry following proper guidelines.

Important Guidelines

- Always ensure proper lighting during face capture.

- Avoid obstructions such as masks, sunglasses, or caps.
- Maintain a stable internet connection.
- If repeated failures occur, contact your administrator or support team.

Support

For any issues or assistance, please contact your organization's support team or raise a ticket through the official support channel.

✅ Do's & ❌ Don'ts for Smooth Check-In / Check-Out

✅ DO's (What You Must Do)

1 Ensure Your SAP ID Is Active

- Always confirm your SAP ID is created and active.
- Face verification works only if your SAP ID is valid in the system.

2 Use Proper Face Position During Verification

- Look straight at the camera.
- Keep your face centered in the frame.
- Maintain a neutral expression.
- Keep your eyes open and visible.

3 Ensure Good Lighting

- Stand in a well-lit area.
- Face natural light when possible.
- Avoid strong backlight (sun directly behind you).

4 Remove Face Obstructions

- Remove sunglasses, coolers, or shades.
- Remove helmets, caps covering face.
- Lower masks before capture.
- Ensure your full face is clearly visible.

5 Keep GPS Enabled

- Turn ON location services.
- Use "High Accuracy" GPS mode.

- Allow FieldTrack to access location at all times.

6 Ensure Stable Internet

- Use stable mobile data or Wi-Fi.
- Wait for confirmation after check-in.
- Do not close the app immediately.

7 Stay Within Scheduled Work Location

- Ensure you are physically within the assigned site.
- Move to an open area if GPS is weak.

8 Keep Your Registered Email Updated

- This helps in password recovery and communication.

✗ DON'Ts (What You Must Avoid)

✗ Do NOT Attempt Spoofing

- Do not show a photo of yourself on another phone.
- Do not use printed photos.
- Spoof attempts will always fail.

✗ Do NOT Wear:

- Coolers or sunglasses
- Helmets covering face
- Face masks during capture
- Scarves covering facial features

✗ Do NOT Retry Multiple Times Rapidly

- Wait for response if network is slow.
- Multiple retries may cause temporary lock.

✗ Do NOT Share Your Credentials

- Never share login details with others.
- Each SAP ID is unique and monitored.

✗ Do NOT Stand in:

- Dark areas
- Inside vehicles with poor light
- Strong shadow zones

✗ Do NOT Disable GPS or Internet During Check-In/ Check-Out

- Location validation requires active GPS and internet.
